

## SOI-Asia Project

Global Educational Resource Sharing  
on the Internet

Keiko Okawa  
WIDE Project

February, 2005

1

## SOI Missions in WIDE Project

- Contents contribution by WIDE
  - By preserving and sharing the valuable educational resources in WIDE/Internet Community.
- Deployment of the Technology from WIDE
  - By using the technology as experimenter in between "researchers" and "users".
  - By demonstrating the social value of the technology.
- Deployment of Internet culture
  - By promoting the Internet as a vehicle of "Higher Education" to the non-or-little internet culture area.

February, 2005

2

## SOI – School on the Internet

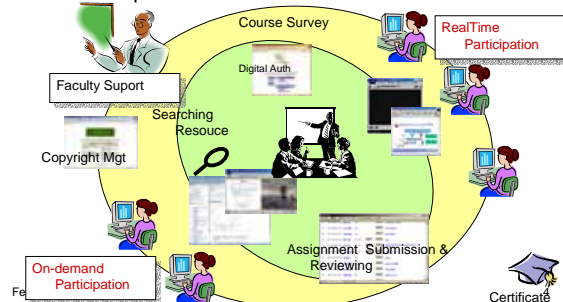

- To share the higher educational resources with people *anytime*
  - Researching the method to carry out the educational activities in university on the Internet.
- To share the higher educational opportunity with people *anywhere*
  - Researching the environment and technology to support the real-time educational communication over the Internet.
- To evaluate the concept
  - Using the real university courses and resources
  - Involving ;
    - individuals who want to learn.
    - individuals/parties who are willing to donate the lectures.
    - universities who want to improve their education.
    - individuals/parties who have a motivation to educate people globally.

February, 2005

3

## SOI Site for anytime Framework for individuals

- Daily used by over 10000 participants by in/out campus

## SOI SITE – Snapshot as of today

- PORTAL SITE
  - SOI SITE: <http://www.soi.wide.ad.jp/>
  - Since 1997
  - Operated by apache, postgres, realserver, etc.
- USERS
  - Over 16,700 Registered participants
  - From high school students to retired business man
  - adult percentage : 60%
- Contents
  - In 250kbps realvideo and synchronized materials by SMIL technology
    - About 2000 hours of IT related lectures.
    - About 60 University courses.
    - About 100 special lectures and tutorials.
- CONTRIBUTION
  - About 10 universities
  - Over 60 individual contributors from worldwide.

February, 2005

5

## SOI Global Studio for anywhere

- Prototyping in 2002
  - Maryland, USA (Joint effort with FLA)
  - California, USA (Joint effort with NTT MCL)
- Standardization and Challenge in 2004
  - California, USA (Joint effort with eXchange)

February, 2005

6

## SOI Asia

- Focusing on educational sharing in Asia
  - Easy collaboration because of small time-differences (0 ~ 3hr)
  - High demand on the international cooperation in higher education.
  - High demand on the internet deployment
  - High value of educational sharing among multi-lateral and multi-culture countries.
- Focusing on Universities as entity

February, 2005

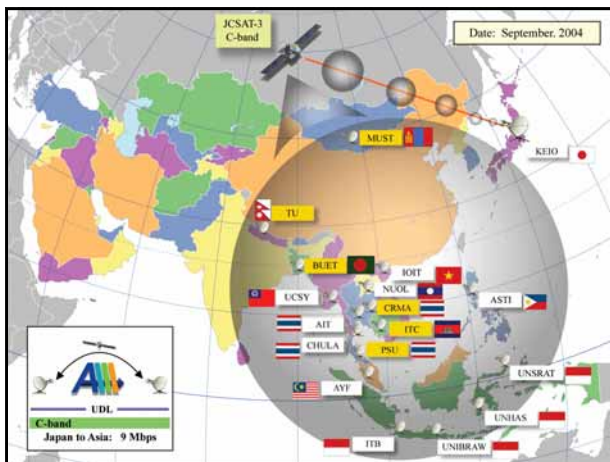

7

## SOI Asia - Project At a Glance

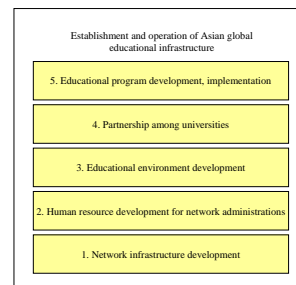

- Since August 2001
- Established educational consortium with 11 institutes in 7 countries in Asia
  - Thailand(2), Lao P.D.R, Myanmar, Indonesia(4), Malaysia, Viet Nam, The Philippines
  - Soon to be 17 partners in 11 counties in Asia
- Implemented educational contribution platform for Asia
  - From Japan - Tokyo University of Marine Science and Technology, Tohoku University, Japan Advanced Institute of Science and Technology, Keio University, The Japanese society of Fish Pathology, WIDE Project
  - Individual contributors worldwide
- Carried out educational programs
  - University, Graduate school level course x 8 (about 40 lectures)
  - Special sessions x 24
  - Network Operator's Workshops x 4
  - 3 month research stay x 2
  - Exchange students to Japanese graduate schools x several students
  - MoU between Universities x 2
  - Ph.D co-advisory program x 1

## 1. Network infrastructure development

- Achievement
  - Establishing the pseudo broad band Internet environment in by utilizing receive only satellite equipment and UDLR technology.
    - 9 Mbps downlink shared by RO sites
    - IPv4/IPv6 multicast enable to the RO sites
  - Implementing the sites in low coat and in short period
    - About \$1000 for setting up for 1 site.
    - About 3 months for everything.
- Future
  - Enhancing monitoring technology for stable operation
  - Expanding the countries and increasing the sites.

February, 2005

12

## Partner site equipment

## 2. Human resource development for network administrations

- Achievement
  - Program development to develop tech staff who maintain and operate SOI Asia network
  - SOI Asia Operators Workshop
    - September, 2002 @ Keio SFC (21 participants)
    - February, 2003 @ AIT, Thailand (21 participants)
  - Operators Team Building by Monthly Meeting
  - Expanding the program with local site initiative and trainers training
    - IT B in Indonesia
    - AIT in Thailand
  - Short Training Sessions utilizing Monthly Meeting
- Future
  - Standard curriculum

February, 2005

15

## 3. Educational environment development

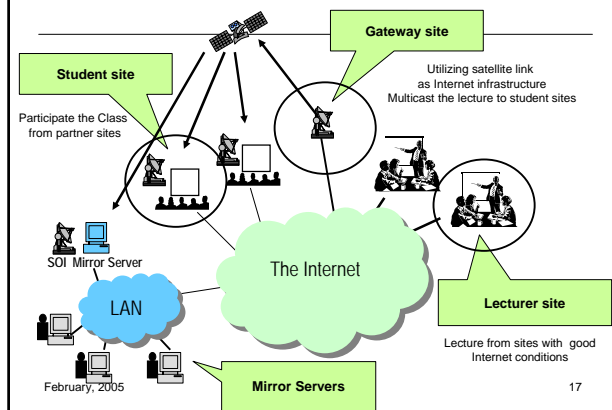

### Absorbing various network conditions

- Achievement
  - Designing lecturer site, gateway site and student site for lecture site portability and stable operation.
  - Designing the standard environment for classes.
  - Documentation
  - Technology development
    - Multicast tree mirroring system
    - Network monitoring tool
- Future development
  - Improving the audio quality in limited bandwidth
  - Improving the interactivity in limited bandwidth

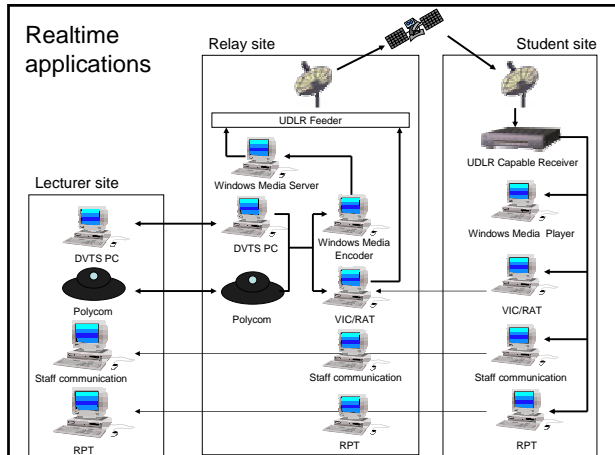

February, 2005

16

## Overview

## Realtime applications

## Standard Environment For Courses

February, 2005

19

## 4. Partnership among universities

### Establishment of multi-lateral partnership and self-operating organization

- Achievement
  - Steering committee meeting twice a year, tele-conference when needed
  - Procedure to share the curriculum
    - Gathering requests for educational contents
    - Agreement on schedules
  - New site policy
  - Steering Committee, Academic Committee, Operators Committee, Research Committee
- Future
  - Credit transfer
  - Fix the approval guideline

February, 2005

20

## SOI Asia - Achievement as of today

- 17 partners in 11 countries
- Partners since 2001 (11)
  - Brawijaya University / Indonesia
  - Hasanuddin University / Indonesia
  - Sam Ratulangi University / Indonesia
  - Institute of Technology, Bandung / Indonesia
  - HELP Institute & AYF / Malaysia
  - University of Computer Studies, Yangon / Myanmar
  - National University of Laos / Laos
  - Asian Institute of Technology / Thailand
  - Chulalongkorn University / Thailand
  - Institute Of Information Technology / Vietnam
  - Advanced Science and Technology Institute / Philippines
- New Partners joining in 2004 (6)
  - Prince of Songkang University / Thailand
  - Chulachomklao Royal Military Academy / Thailand
  - Institute of Engineering, Tribhuvan University / Nepal
  - Bangladesh University of Engineering and Technology (BUET) / Bangladesh
  - School Of telecommunications and Information Technology / Mongol
  - Institute of Technology of Cambodia(ICT) / Cambodia

February, 2005

21

## Certificate award

February, 2005

July 30, 2002 Social Science lecture series certificate award ceremony

## 5. Educational program development, implementation

### Lecture development and sharing based on partner site requests

- Achievement
  - Shared 7 courses and 70 lectures on IT and fisheries
  - More than 1000 students have participated altogether
    - Global topics
    - Topics which gained much request
  - Certificate awards to students who submitted the assignments
  - Lecture from Asian partner sites
  - Various communication programs
- Future
  - Credit transfer and approval following the guidelines
  - Application to exchange student programs
  - Global lecture development from each site

February, 2005

23

## Multi-point realtime seminar

- Panel discussion with multi-point
- Proved to work as active discussion able environment

(Event was held with help by Japanese embassy in Myanmar with ASEAN countries)

February, 2005  
2003/2/20 IT Networking for Human Resources Development and Cooperation in ASEAN

## Multi-point realtime communication

- July 3<sup>rd</sup>, 2003
- Prime minister Koizumi and other cabinet people inspects SOI Asia environment

February, 2005  
SOI ASIA Project: Interactive discussion on Interactive Distance Education"

## Advice and interview for future exchange students

- Communication program before coming to Japan  
(Communication affiliating university and a program which supports students who will take Japanese master/doctoral courses in a few years)

2004/2/12 NAIST - AYF Communication

## 2004 research and activities

- SOI
  - Mobile environment
  - Improving Interactivity
  - Better Navigation
  - Better lecture archiving method
  - Better student support system
- SOI-Studio
  - Standard Spec
  - Trial of Advanced Features
  - Operational Model
  - Phase-I Operation by End/Sept
  - Phase-II Operation by End/Nov
  - Phase-III Operation by End/Feb
  - France ?
- SOI-ASIA
  - Courses for accreditation
    - Internet Operation (WIDE)
    - Advanced Technology of Marine Science and Technology (Tokyo University of marine science and technology)
    - Bio-technology (Tohoku University)
  - Collaboration for establishing the master course in Laos (Keio Univ)
    - Phd co-advisory (Keio Univ)
    - UCSY (Myanmar)
  - Support program for exchanging students
    - AYF (Malaysia)
  - Operational Technology
    - Monitoring
    - Training
  - New site implementation
    - Nepal/Mongol/Cambodia/Bangladesh

February, 2005

## SOI Asia Site Setup Manual

- Chap0 – SOI Asia Site Setup/Verification Guide
- Chap1 – SOI Asia Network Setup
- Chap2 – SOI Asia Server Setup : Internet Services
- Chap3 – SOI Asia Server Setup : SOI Asia archived lecture server
- Chap4 – SOI Asia Archive Content Creation
- Chap5 – SOI Asia Realtime Lecture and Audio Setup
- Chap6 – SOI Asia Network monitoring setup
- CDs
  - FreeBSD 4.9
  - Fedora Core 1
  - Routing related software
  - Client Communication
  - SOI Server

February, 2005

29

## Client Site Physical Setup

February, 2005

30

## Client Site Network Segment

February, 2005

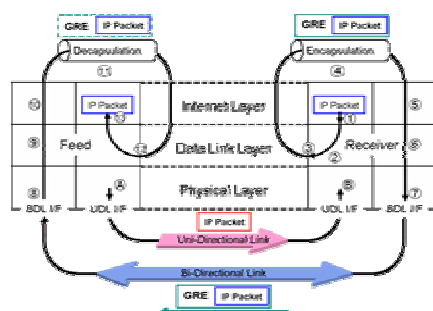

31

## How UDL works

February, 2005

32

February, 2005

33

February, 2005

34

## SOI Server

- DNS
- SMTP
- DHCP
- File Transfer service installation
- Web Server installation
- Web Cache Proxy installation
- MTM

February, 2005

35

## Network Monitoring

- SNMPD installation on RR
- SNMP Proxy installation on RR
- MRTG installation on SOI server
- Looking Glass installation on SOI server

February, 2005

36

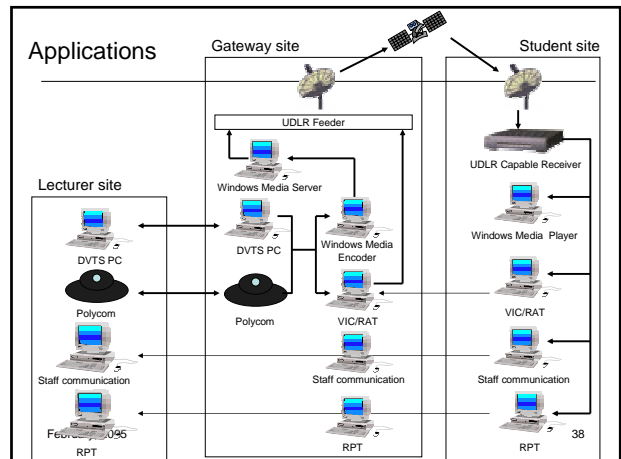

## Realtime

- Student Site
  - VIC/RAT (multicast)
  - WMT (multicast)
- Lecturer Site
  - DVTS
  - Polycom
  - WMT

February, 2005

37

## Portable Lecturer Sites Giving lectures

- KEIO SFC
- KEIO MITA Campus
- JAIST
- NAIST
- Tohoku University
- Otemachi Office
- AIT
- US Studio (California)
- US Studio (Maryland)
- SONY CSL office in California
- MieSci

etc

February, 2005

## Gateway Site at KEIO SFC

February, 2005

40

## Student Sites in Asia Joining the lecture together

Asian Institute of Technology,  
Thailand

Institute of Technology, Bandung  
Indonesia

National University of Laos,  
Laos

Asian Youth Fellowship  
Malaysia

February, 2005

41

## Policy Routing

- Optimize satellite link utilization for a site that has two links
- Flow-based policy

February, 2005

42

## Administration

- 3 committees
  - Steering
  - Academic
  - Operators
- Guidelines
  - New site procedure
  - Content usage guideline

February, 2005

43

### SOI ASIA Project

SOI Asia Sharing Knowledge Across Borders  
- Tsunami: Lessons Learned and Universities' Role -

**Date & Time**  
Feb 24, 2005 16:30 ~ 20:30 (JST)

**Program**  
16:30 ~ 17:00 Keynote - Prof. Jun Murai  
17:00 ~ 17:30 Report from Japan (1)  
17:30 ~ 18:00 Reports from Thailand  
18:10 ~ 18:40 Report from Japan (2)  
18:40 ~ 19:10 Report from Indonesia (1)  
19:10 ~ 19:20 Report from Indonesia (2)  
19:20 ~ 19:30 Panel Discussion  
20:10 ~ 20:30 Closing

**Panelist Sites**  
- Keio University, Japan  
- Tohoku University, Japan  
- Asian Institute of Technology (AIT), Thailand  
(by Dr. Anat in Chulalongkorn University)  
- Institut Teknologi Bandung (ITB), Indonesia  
- Brawijaya University, Indonesia

**Other SOI ASIA Partner Sites (Total: 11 countries 17 sites)**  
Chulalongkorn University (Thailand)  
Prince of Songkla University (Thailand)  
Chulalongkorn University (Thailand)  
University of Computer Studies, Yangon (Myanmar)  
Sam Ratulangi University (Indonesia)  
Hasanuddin University (Indonesia)  
Institute of Information Technology (Vietnam)  
Advanced Science and Technology Institute (Philippines)  
Institute of Technology of Cambodia (Cambodia)  
Bangladesh University of Engineering and Technology (Bangladesh)  
Mongolian University of Science and Technology (Mongolia)  
Tribhuvan University (Nepal)
